

Multi-Purpose Courts

A multi-purpose court is a playing surface that can be used for multiple sports. For example, a tennis court can also be used for soccer or basketball. This type of court is becoming increasingly popular because it provides a lot of value for the community.

There are many benefits of having a multi-sport court in your community:

- For one, it can provide a place for people to come together and be active. It can also be used as a space for community events or tournaments.
- Additionally, a multi-sport court can increase the property value of nearby homes and businesses.
